

LEGO Mindstorms Robotics

Join Barbara Stuart for a six-week course where we will learn the basics of building and programming robots using the LEGO Mindstorms® system. Robotics is hands-on and offers exposure to mechanical design, electronics, and programming. During this course, we will be working on projects such as: programming the robot to drive, stay on a table, and kick a ball into a goal.

**We will meet on: Thursday,
April 11, 18, 25,
May 2, 9, and 16,
3:30-4:30 p.m.
Upper Elementary Classrooms**

Name: _____

Phone: _____

Cost \$100 (\$10/class + \$40 supply fee)
(Make checks payable to Barbara Stuart)
